Be It Ordained by the City Council of the City of Chicago:

SECTION 1. That the Commissioner of the Department of Environmental Control subject to the approval of the City Comptroller and the Corporation Counsel as to form and legality is authorized to execute an agreement in behalf of the City of Chicago with Atlantic Richfield Company, said agreement to be in the following form:

This Agreement, entered into this ....day of ...., 1972, between Atlantic Richfield Company, a Pennsylvania corporation, having an office at 400 E. Clark Street, Chicago, Illinois (hereinafter referred to as City of Chicago).

WITNESSETH:

Whereas, Atlantic Richfield conducted a public service program entitled the "Clean Air Caravan" which surveyed the emission characteristics of automobiles presently in use in the United States; and

Whereas, Atlantic Richfield developed and is the owner of a van which is specially designed for emission surveillance; and

Whereas, the City of Chicago is desirous of using said van for the purpose of emission surveillance;

Now, Therefore, in consideration of the mutual covenants and agreements herein contained, it is hereby agreed by and between the parties hereto as follows:

1. Atlantic Richfield hereby lends to the City of Chicago, one (1) van which is identified by the name of Atlantic Richfield Clean Air Caravan (hereinafter referred to as "Van").

2. Said Van shall at all times be and remain the property of Atlantic Richfield and shall be used by the City of Chicago for the purpose of emission surveillance. The City of Chicago further agrees not to remove the name Atlantic Richfield Clean Air Caravan from said Van.

CITY OF CHICAGO
DEPARTMENT OF LAW

March 27, 1972.

To The Honorable,
The City Council of the City of Chicago:

Re: *Ahern v. Murphy, United States Court of Appeals No. 71-1286.*

LADIES AND GENTLEMEN—On March 22, 1972, the United States Court of Appeals for the Seventh Circuit handed down a decision affirming the validity of the City ordinance and the Police Board rule requiring police officers to live within the corporate boundaries of the City.

The plaintiff policeman had sued in the United States District Court under the federal civil rights act. He claimed that the ordinance and the rule denied him equal protection of the law in violation of the Fourteenth Amendment to the United States Constitution.

In conformity with a recent United States Supreme Court decision holding valid a similar Detroit, Michigan law, the Court of Appeals held that the trial court correctly dismissed the policeman's complaint.

Very truly yours,
(Signed) RICHARD L. CURRY,
Corporation Counsel.

CITY OF CHICAGO
DEPARTMENT OF LAW

March 29, 1972.

To The Honorable Members of the
City Council of the City of Chicago:

Re: *City of Chicago v. Grendys Building Corp. and Ogden Manufacturing Company Appellate Court of Illinois, No. 54846.*

LADIES AND GENTLEMEN—On March 20, 1972, the Illinois Appellate Court filed an opinion reversing the decision of the Circuit Court of Cook County in the above-entitled case.

The Circuit Court had upheld an order of the Chicago Zoning Board ordering defendants to cease doing business until they provided 23 off-street parking spaces for their employees and to build a 10 by 50 foot loading berth. These requirements conform to Article 9.11-1(1) and Article 9.10-1(1) respectively of the Chicago Zoning Ordinance.

This order of the Zoning Board came *after* the completion of defendant's construction project at a cost of more than $80,000, and after having issued a permit allowing said construction to proceed.

The Illinois Appellate Court reversed and remanded the lower court's decision. The court stated that since the City 1) issued a permit approving construction plans which *did not* provide for a loading berth of required dimensions, and 2) accepted the defendant's affidavit promising to provide six off-street parking spaces (short of the required one for every four employees), defendant's reliance thereon was neither unreasonable nor unlawful.

Very truly yours,

(Signed) RICHARD L. CURRY,
Corporation Counsel.

Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination, rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

b. The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.

c. The contractor shall send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

d. The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

e. The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations and orders.

The Sponsor agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the Equal Opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor that it will furnish the administering agency with the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The Sponsor further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of 24 September 1965, with a contractor debarred from, or who has not demonstrated eligibility for, government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the Equal Opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part III, Subpart D, of the Executive Order. In addition, the Sponsor agrees that if it fails or refused to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the Sponsor under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from the Sponsor; or refer the case to the Department of Justice for appropriate legal proceedings.

10. By its acceptance hereof, the Sponsor hereby covenants that to the extent it has or may have either present or future control over each area identified on the Exhibit "A" as "clear zone", and unless exceptions to or deviations from the following obligations have been granted to the Sponsor in writing by the FAA, it will clear said area or areas of any existing structure or any natural growth which constitutes an obstruction to air navigation with the standards established by Section 77.23 as applied to Section 77.25, Part 77, of the Federal Aviation Regulations; and the Sponsor further covenants that it will control the subsequent erection of structures and control natural growth to the extent necessary to prevent the creation of obstructions within said standards.

11. It is understood and agreed that the reference in Paragraph 7, Part III, Sponsor's Assurances of the Project Application to "Section 77.23 as applied to Section 77.27" is hereby revised to refer to "Section 77.23 as applied to Section 77.25."

12. The Sponsor hereby further covenants that it will not permit any permanent-type structures, other than structures required for aids to air navigation and such other structures as may be specifically excepted in writing by the FAA, to be erected on, and that it will cause any existing structures to be removed from, each area identified on the "Exhibit A" as "clear zone" or any portions thereof, concerning which the Sponsor has acquired a fee interest with federal financial assistance, irrespective of whether such structures constitute an obstruction to air navigation.

13. It is understood and agreed that the terms "Federal Aviation Agency" or "Federal Airport Act", wherever they appear in this agreement, in the Project Application, plans and specifications, or in any other document constituting a part of this agreement, shall be deemed to mean "Federal Aviation Administration" or the "Airport and Airway Development Act of 1970", as the case may be.

14. The Sponsor agrees that it will maintain a fee and rental structure for the facilities and services being provided the airport users which will make the airport as self-sustaining as possible under the circumstances existing at that particular airport, taking into account such factors as the volume of traffic and economy of collection.

15. It is also understood and agreed that Paragraph 2, Part III, of the Project Application is revised to read as follows:

> The Sponsor will operate the airport as such for the use and benefit of the public. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically agrees that it will keep the airport open to all types, kinds, and classes of aeronautical use on fair and reasonable terms without discrimination between such types, kinds, and classes; provided, that the Sponsor may establish such fair, equal, and not unjustly discriminatory conditions to be met by all users of the airport; and provided further, that the Sponsor may prohibit or limit any given type, kind, or class of aeronautical use of the airport if such action is necessary -

a. For safe and efficient use of the airport,

b. To keep operation activities within acceptable noise levels, or

c. To serve the civil aviation needs of the public.

16. It is understood and agreed that subparagraphs a. and b. of Paragraph 3 of Part III - Sponsor's Assurances of the Project Application - are amended and revised to delete the words "or hereafter" wherever they appear therein. It is the intent of this amendment to limit the application of the exclusive rights policy only to airports now owned or controlled by the Sponsor.

17. It is understood and agreed that Paragraph 10, Part III, of the Project Application is revised to read as follows:

> The Sponsor will furnish the FAA with such annual or special airport financial and operational reports as may be reasonably requested. Such reports may be submitted on forms furnished by the FAA, or may be submitted in such manner as the Sponsor elects as long as the essential data is furnished. The airport and all airport records and documents affecting the airport, including deeds, leases, operation and use agreements, regulations, and other instruments will be made available for inspection and audit by the FAA and the Comptroller General of the United States, or his duly authorized representative upon reasonable request. The Sponsor will furnish to the FAA or the General Accounting Office a true copy of any such documents.

18. The Sponsor hereby covenants and agrees that the United States shall not make, nor shall it be obligated to make, any grant payment under this project until an Agency and Participation Agreement has been entered into by and between the City of Chicago, as principal, and the State of Illinois, Department of Aeronautics, as agent, and the same has been determined by the FAA to be consonant with the applicable statutes of the State of Illinois.

19. It is understood and agreed by and between the parties hereto that any reference herein or in the aforesaid Project Application, dated 15 January 1972 to plans and specifications shall mean the plans and specifications as approved subject to engineering comment by the Acting Chief, Chicago Airports District Office, Great Lakes Region, Federal Aviation Administration on 14 December 1971.

20. It is understood and agreed by and between the parties hereto that the United States shall not make, nor shall it be obligated to make, final grant payment hereunder until the Sponsor has submitted for review by the FAA all leases and concession agreements in effect at the said Airport, that have not been previously reviewed by the FAA, which grant rights to conduct enterprises rendering services to the public, and the same have been determined by the FAA to be non-objectionable.

21. The Federal Government does not plan or contemplate the construction of any structures pursuant to Paragraph 9 of Part III - Sponsor's Assurances of the Project Application, and therefore it is understood and agreed that the Sponsor is under no obligation to furnish any such area or rights without cost to the Federal Government under this Grant Agreement. However, nothing contained herein shall be construed as altering or changing the rights of the United States and/or the obligations of the Sponsor under prior Grant Agreements to furnish rent free space for the activities specified in such Agreements.

22. It is understood and agreed by and between the parties hereto that, notwithstanding the fact that the plans and specifications provide for the work of landscape planting and furnishing of a refrigerator, electric range, coat hangers, work bench, electric water cooler, draperies, plaque and free-standing lockers, such work and equipment shall not be a part of this project and, if accomplished by the Sponsor, shall be without any participation in the costs thereof by the United States under this project; it is further understood and agreed that the Sponsor shall maintain, as a portion of the cost records covering this project, separable records of cost pertaining to the above referred items excluded from Federal participation under this project, and that said records shall be available for inspection and audit by the FAA to the end that the costs of the excluded items may be definitely determined.

23. a. The parties hereto recognize that a continuing need exists for parking space for Government owned and controlled automotive equipment used or assigned for use in serving FAA facilities and equipment on or in the vicinity of the airport. It is agreed by the parties hereto that the Sponsor will continue to provide, without charge, designated parking space as now exists in reasonable proximity to FAA operations for such automotive equipment and that no change or modifications will be made in such designation without the consent of the parties hereto or their designated representative.

b. The parties hereto further recognize the need for adequate parking space for the motor vehicles used by the FAA employees in providing them with transportation to their place of employment and assigned duty stations on the airport. It is fully understood by and between the parties hereto that the Sponsor has made adequate parking space available to these employees on terms that are as favorable as those provided to the Sponsor's employees and the employees of others having duty stations on the airport. It is agreed by the parties hereto that the relationship now existing with respect to automobile parking space for FAA employees will continue and that no change will be made to alter this relationship or to either curtail or enlarge the demand for the parking facilities designated without the consent and concurrence of the parties hereto or their designated representatives.

The Sponsor's acceptance of this Offer and ratification and adoption of the Project Application incorporated herein shall be evidenced by execution of this instrument by the Sponsor, as hereinafter provided, and said Offer and Acceptance shall comprise a Grant Agreement, as provided by the Airport and Airway Development Act of 1970, constituting the obligations and rights of the United States and the Sponsor with respect to the accomplishment of the Project and the operation and maintenance of the Airport. Such Grant Agreement shall become effective upon the Sponsor's acceptance of this Offer and shall remain in full force and effect throughout the useful life of the facilities developed under the Project but in any event not to exceed twenty years from the date of said acceptance.

Part III–SPONSOR'S ASSURANCES

In order to furnish the assurances required by the Act and Regulations the Sponsor hereby covenants and agrees with the United States, as follows:

1. These covenants shall become effective upon acceptance by the Sponsor of an offer of Federal aid for the Project or any portion thereof, made by the FAA and shall constitute a part of the Grant Agreement thus formed. These covenants shall remain in full force and effect throughout the useful life of the facilities developed under this Project, but in any event not to exceed twenty (20) years from the date of said acceptance of an offer of Federal aid for the Project.

2. The Sponsor will operate the Airport as such for the use and benefit of the public. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically agrees that it will keep the Airport open to all types, kinds, and classes of aeronautical use on fair and reasonable terms without discrimination between such types, kinds, and classes: *Provided,* That the Sponsor may establish such fair, equal, and not unjustly discriminatory conditions to be met by all users of the Airport as may be necessary for the safe and efficient operation of the Airport; *And Provided Further,* That the Sponsor may prohibit or limit any given type, kind, or class of aeronautical use of the Airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public.

3. The Sponsor—

a. Will not grant or permit any exclusive right forbidden by Section 308(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1349(a)) at the airport, or at any other airport now or hereafter owned or controlled by it;

b. Agrees that, in furtherance of the policy of the FAA under this covenant, unless authorized by the Administrator, it will not, either directly or indirectly, grant or permit any person, firm or corporation the exclusive right at the airport, or at any other airport now or hereafter owned or controlled by it, to conduct any aeronautical activities, including, but not limited to, charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity.

c. Agrees that it will terminate any existing exclusive right to engage in the sale of gasoline or oil, or both, granted before July 17, 1962, at such an airport, at the earliest renewal, cancellation, or expiration date applicable to the agreement that established the exclusive right; and

d. Agrees that it will terminate any other exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under the Federal Airport Act.

4. The Sponsor agrees that it will operate the Airport for the use and benefit of the public, on fair and reasonable terms, and without unjust discrimination. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically covenants and agrees:

a. That in its operation and the operation of all facilities on the airport, neither it nor any person or organization occupying space or facilities thereon will discriminate against any person or class of persons by reason of race, color, creed, or national origin in the use of any of the facilities provided for the public on the Airport.

b. That in any agreement, contract, lease, or other arrangement under which a right or privilege at the Airport is granted to any person, firm, or corporation to conduct or engage in any aeronautical activity for furnishing services to the public at the airport, the Sponsor will insert and enforce provisions requiring the contractor;

(1) to furnish said service on a fair, equal, and not unjustly discriminatory basis to all users thereof, and

(2) to charge fair, reasonable, and not unjustly discriminatory prices for each unit or service; *Provided,* That the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.

c. That it will not exercise or grant any right or privilege which would operate to prevent any person, firm, or corporation operating aircraft on the Airport from performing any services on its own aircraft with its own employees (including, but not limited to maintenance and repair) that it may choose to perform.

d. In the event the Sponsor itself exercises any of the rights and privileges referred to in subsection b. the services involved will be provided on the same conditions as would apply to the furnishing of such services by contractors or concessionaires of the Sponsor under the provisions of such subsection b.

5. Nothing contained herein shall be construed to prohibit the granting or exercise of an exclusive right for the furnishing of nonaviation products and supplies or any service of a nonaeronautical nature or to obligate the Sponsor to furnish any particular nonaeronautical service at the Airport.

6. The Sponsor will operate and maintain in a safe and serviceable condition the Airport and all facilities thereon and connected therewith which are necessary to serve the aeronautical users of the Airport other than facilities owned or controlled by the United States, and will not permit any activity thereon which would interfere with its use for airport purposes: *Provided,* That nothing contained herein shall be construed to require that the Airport be operated for aeronautical uses during temporary periods when snow, flood, or other climatic conditions interfere with such operation and maintenance; *And Provided Further,* That nothing herein shall be construed as requiring the maintenance, repair, restoration or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the Sponsor.

7. Insofar as it is within its power and reasonably possible, the Sponsor will, either by the acquisition and retention of easements or other interests in or rights for the use of land or airspace or by the adoption and enforcement of zoning regulations, prevent the construction, erection, alteration, or growth of any structure, tree, or other object in the approach areas of the runways of the Airport, which would constitute an obstruction to air navigation according to the criteria or standards prescribed in Section 77.23, as applied to Section 77.27, Part 77 of the Federal Aviation Regulations. In addition, the Sponsor will not erect or permit the erection of any permanent structure or facility which would interfere materially with the use, operation, or future development of the Airport, in any portion of a runway approach area in which the Sponsor has acquired, or may hereafter acquire, property interests permitting it to so control the use made of the surface of the land.

8. All facilities of the Airport developed with Federal aid and all those usable for the landing and taking off of aircraft, will be available to the United States at all times, without charge, for use by military and naval aircraft in common with other aircraft, except that if the use by military and naval aircraft is substantial, a reasonable share, proportional to such use, of the cost of operating and maintaining facilities so used, may be charged. Unless otherwise determined by the FAA, or otherwise agreed to by the Sponsor and the using agency, substantial use of an airport by military and naval aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the FAA, would unduly interfere with use of the landing area by other authorized aircraft, or during any calendar month that:

a. Five (5) or more military or naval aircraft are regularly based at the airport or on land adjacent thereto; or

b. The total number of movements (counting each landing as a movement and each takeoff as a movement) of military or naval aircraft is 300 or more, or the gross accumulative weight of military or naval aircraft using the Airport (the total movements of military or naval aircraft multiplied by gross certified weights of such aircraft) is in excess of five million pounds.

9. Whenever so requested by the FAA, the Sponsor will furnish without cost to the Federal Government, for construction, operation and maintenance of facilities for air traffic control activities, or weather reporting activities and communication activities related to air traffic control, such areas of land or water, or estate therein, or rights in buildings of the Sponsor as the FAA may consider necessary or desirable for construction at Federal expense of space or facilities for such purposes. The approximate amounts of areas and the nature of the property interests and/or rights so required will be set forth in the Grant Agreement relating to the Project. Such areas or any portion thereof will be made available as provided herein within 4 months after receipt of written request from the FAA.

10. The Sponsor will furnish the FAA with such annual or special airport financial and operational reports as may be reasonably requested. Such reports may be submitted on forms furnished by the FAA, or may be submitted in such manner as the Sponsor elects so long as the essential data are furnished. The Airport and all airport records and documents affecting the Airport, including deeds, leases, operation and use agreements, regulations, and other instruments, will be made available for inspection by any duly authorized representative of the FAA upon reasonable request. The Sponsor will furnish to the FAA, upon request, a true copy of any such document.

11. The Sponsor will not enter into any transaction which would operate to deprive it of any of the rights and powers necessary to perform any or all of the covenants made herein, unless by such transaction the obligation to perform all such covenants is assumed by another public agency found by the FAA to be eligible under the Act and Regulations to assume such obligations and having the power, authority, and financial resources to carry out all such obligations. If an arrangement is made for management or operation of the Airport by any agency or person other than the Sponsor or an employee of the Sponsor, the Sponsor will reserve sufficient rights and authority to insure that the Airport will be operated and maintained in accordance with the Act, the Regulations, and these covenants.

12. The Sponsor will keep up to date at all times an airport layout plan of the Airport showing (1) the boundaries of the Airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the Sponsor for airport purposes, and proposed additions thereto; (2) the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars, and roads), including all proposed extensions and reductions of existing airport facilities; and (3) the location of all existing and proposed nonaviation areas and of all existing improvements thereon. Such airport layout plan, and each amendment, revision, or modification thereof, shall be subject to the approval of the FAA, which approval shall be evidenced by the signature of a duly authorized representative of the FAA on the face of the airport layout plan. The Sponsor will not make or permit the making of any changes or alterations in the Airport or any of its facilities other than in conformity with the airport layout plan as so approved by the FAA, if such changes or alterations might adversely affect the safety, utility, or efficiency of the Airport.

13. Insofar as is within its power and to the extent reasonable, the Sponsor will take action to restrict the use of land adjacent to or in the immediate vicinity of the Airport to activities and purposes compatible with normal airport operations including landing and takeoff of aircraft.

14. If at any time it is determined by the FAA that there is any outstanding right or claim of right in or to the Airport property, other than those set forth in Part II, paragraphs 7(a), 7(b), and 7(c), the existence of which creates an undue risk of interference with the operation of the Airport or the performance of the convenants of this Part, the Sponsor will acquire, extinguish, or modify such right or claim of right in a manner acceptable to the FAA.

15. Unless the context otherwise requires, all terms used in these covenants which are defined in the Act and the Regulations shall have the meanings assigned to them therein.

Part IV–PROJECT AGREEMENT

If the Project or any portion thereof is approved by the FAA, and an offer of Federal aid for such approved Project is accepted by the Sponsor, it is understood and agreed that all airport development included in such Project will be accomplished in accordance with the Act and the Regulations, the plans and specifications for such development, as approved by the FAA, and the Grant Agreement with respect to the Project.

IN WITNESS WHEREOF, the Sponsor has caused this Project Application to be duly executed in its name, this 15th day of January, 1972

[Signature forms omitted]

NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS ADMINISTERED BY THE FEDERAL AVIATION ADMINISTRATION

Sponsor Assurances to accompany the Project Application dated January 15, 1972 for a grant of funds for the development of the Merrill C. Meigs Field, Chicago, Illinois, under Project No. 8-17-0029-01.

In order to furnish the assurances required by Title VI of the Civil Rights Act of 1964, and by Part 21 of the Regulations of the Office of the Secretary of Transportation, the City of Chicago, (hereinafter called the "Sponsor") hereby covenants and agrees with the United States (hereinafter called the "Government") as follows:

> "The Sponsor in the operation and use of the airport will not on the grounds of race, color, or national origin, discriminate or permit discrimination against any person or group of persons in any manner prohibited by Part 21 of the Regulations of the Office of the Secretary of Transportation."

The Sponsor will also include, or require the inclusion, in every agreement or concession pursuant to which any person, other than the Sponsor, operates or has the right to operate any facility on the Airport providing services to the public, the foregoing covenant as an obligation assumed by that person, together with a provision granting the Sponsor the right to take such action as the Government may direct to enforce that covenant.

Noncompliance with the above assurances shall constitute a material breach, and in the event of such noncompliance, the Government may take appropriate action to enforce compliance, may terminate the Grant Agreement to which the covenant relates, or seek judicial enforcement.

The covenant shall become effective upon execution and shall constitute part of the Grant Agreement to which it relates and shall remain in full force and effect so long as the airport covered by such agreement continues to be used and operated as a public airport.

Illinois, Illinois Project No. 71A-7-531, ADAP Project No. 8-17-0029-01, City No. 80.85-71-31; Construct a Fire/Crash/Rescue Station including site preparation and utilities; and

Whereas, the Municipality has accordingly requested Federal financial assistance in the accomplishment of such project and responsive thereto, the Federal Government, through the Federal Aviation Administration, has issued to the Municipality a Tentative Allocation (or Allocations) in the sum of Three Hundred Ten Thousand Dollars ($310,000); and

Whereas, the Department has had appropriated to it certain monies for the development of public air navigation facilities, subject to the provisions of Section 34 of the Illinois Aeronautics Act; and

Whereas, the Municipality has requested financial assistance and the Department has agreed to make a grant of part of the amount of the non-Federal share of costs and expenses of said project, and the Municipality has requested the Department to act as its agents in connection therewith; and

Whereas, the parties hereto, by this agreement, intend (a) to fix their respective responsibilities, with reference to each other, with reference to the accomplishment of said project, and with reference to the United States, and (b) to designate the parties to accept, receipt for and disburse all funds and payments of the Federal Government and of the Municipality used or to be used in payment of the costs and expenses of said project or representing reimbursement by the Federal Government on such costs and expenses as shall have been incurred by the parties hereto, or either of them.

Now, Therefore, for and in consideration of the benefits which will accrue to the parties hereto by virtue of this agreement and the respective covenants herein contained, It Is Mutually Covenanted and Agreed as follows:

1. The Municipality shall be the "Sponsor" of the project above identified, except as set forth in paragraph 2 immediately hereafter following:
2. The Department shall contribute financial assistance to the extent hereinafter stated, and furnish project reporting liaison with the Federal Aviation Administration.
3. As between the Municipality, the State of Illinois and the United States, the Municipality shall be the contractual party to such construction contract or contracts as shall be entered into for the accomplishment of the project, subject only to the agency provisions hereinafter set out.
4. Plans, specifications and estimates for said project have been prepared by or at the instance of the Municipality, copies of which will be submitted to the Department of Aeronautics for review prior to the advertising for bids thereon.
5. The Municipality will provide adequate, capable and qualified Illinois Licensed resident project engineer(s) and materials testing technician(s) and will further prepare and transmit such project reports as shall be required by the Federal Aviation Administration, or the Department, including semi-final and a final inspection report on the project work (or if more than one construction contract is involved, then on each phase of the project work which is covered by separate contract) to the Department, and in conjunction with such final inspection report or reports shall certify to the Department that the work involved has been fully completed in accordance with the plans, specifications and contracts, as the same shall have been modified or supplemented by change order, supplementary contract or otherwise, and that such work is accepted.
6. The Municipality hereby designates the Department, as its Agent, and the Department hereby accepts said designation to act as Agent for the Municipality:
   (a) To exercise such direction of the project work as its personnel will permit but limited to a determination that the project is being completed in accordance with plans and specifications, provided that neither the Department nor the State shall be held responsible or be chargeable for any damage resulting from performance or attempted performance of said project work or for any other cause or reason.
   (b) To accept, endorse and deliver to the Municipality, without recourse, all warrants issued by the United States in aid of said project pursuant to this agreement.
7. The Municipality shall be a signatory party, in its own name, stead, right and behalf, to the Project Application made or to be made to the Federal Aviation Administration, to the Acceptance of such Grant Offer as shall be tendered by the United States, through the Federal Aviation Administration, to any and all Amendments to such Grant Agreement as shall be executed and to any and all Applications for Grant payments (Form FAA 5100-6). The Department shall be furnished with one (1) executed copy of each of these documents.
8. The estimated total cost of the project is Six Hundred Twenty Thousand Dollars ($620,000). The Department hereby agrees, with approval of the Governor, to participate in the project, for payment of such project costs as are not barred by Section 34 of the Illinois Aeronautics Act, from the funds appropriated to the Department by and under Section 3, House Bill 1278 (Public Act 77-151), 77th General Assembly, to the extent hereinafter stated. Payments to the Contractor shall be made from time to time on the basis of field reports submitted by the Project Engineer and approved by the Chief Engineer, up to said maximum State funds committed.

   On the basis of the Tentative Allocation issued by the Federal Aviation Administration, it is expected that a Grant Offer from the United States will be tendered in the approximate amount of Three Hundred Ten Thousand Dollars ($310,000). It is understood that the Department will contribute the sum of Sixty Thousand Dollars ($60,000), for the accomplishment of the project. However, the Municipality specifically agrees that in any event it will pay on project costs any amount by which the total of actual costs may and shall exceed the sum of the State funds, as are herein committed, and the Federal funds granted to or allowed and paid on project costs, as the same may be incurred by reason of contingencies, over-runs, engineering errors, or otherwise, in order to complete the work called for by the project Grant Agreement with the United States, and the Project Plans and Specifications, as the same may, with the express consent and approval of the Municipality, be amended, changed, modified or supplemented subject, however, and only to the limitations as to revenue raising and restrictions on bonded indebtedness imposed by State Statute and constitution.

9. All disbursements of State funds in connection with said project shall be made on the following basis:
   (a) The Municipality shall establish an account in which shall be deposited all State funds (and in which may be deposited Federal funds) pertaining to the project. All State funds granted for said project shall be deemed to be trust funds, and shall be applied by the Municipality for the purpose for which they were granted by the Department. The Municipality shall have the right to draw checks against said account, or make withdrawals therefrom, and the bank or banks in which said funds are deposited shall be under no obligation to see to the application of said funds. The Department shall be furnished with copies of the vouchers authorizing withdrawals of funds from said account.
   (b) The Municipality shall transmit to the Department, from time to time, written requests for funds comprising part of the grant being made by the Department for the purposes of said project, which requests shall be in such form and shall contain such information, and which shall be accompanied by such supporting reports, certifications, approvals, authorizations, bills, or other documents, as the Department may require.
   (c) When satisfied that it is lawful and proper for the requested funds to be provided, the Department will prepare, execute and deliver to the appropriate State Department, agency or official all necessary vouchers or documents required to induce the action thereof in providing such funds. The Department may, if it so desires, supply the Municipality with the forms of vouchers or documents, aforesaid, and require the Municipality to fill in and prepare said forms for the Department's execution.
10. The Municipality agrees to comply at all times with the conditions prescribed in said Section 34 with respect to which the Municipality is required to satisfy the Department under the terms thereof.
11. The airport shall be used, operated, and maintained at all times by the Municipality for the use and benefit of the general public without unjust discrimination, in accordance with all applicable Federal and State laws and the rules and regulations prescribed thereunder, and in accordance with the covenants and assurances of the Municipality made with and to the United States.
12. The Municipality shall file with the Department such reports concerning the matters covered by this agreement, including the use, operation and maintenance of the Airport, as the Department may require from time to time.
13. Part III–SPONSOR'S ASSURANCES

In order to furnish the assurances required by the Act and Regulations the Sponsor hereby covenants and agrees with the United States, as follows:

1. These covenants shall become effective upon acceptance by the Sponsor of an offer of Federal aid for the Project or any portion thereof, made by the FAA and shall constitute a part of the Grant Agreement thus formed. These covenants shall remain in full force and effect throughout the useful life of the facilities developed under this Project, but in any event not to exceed twenty (20) years from the date of said acceptance of an offer of Federal aid for the Project.

2. The Sponsor will operate the Airport as such for the use and benefit of the public. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically agrees that it will keep the Airport open to all types, kinds, and classes of aeronautical use on fair and reasonable terms without discrimination between such types, kinds, and classes: *Provided*, That the Sponsor may establish such fair, equal, and not unjustly discriminatory conditions to be met by all users of the Airport as may be necessary for the safe and efficient operation of the Airport; *And Provided Further*, That the Sponsor may prohibit or limit any given type, kind, or class of aeronautical use of the Airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public..

3. The Sponsor–

a. Will not grant or permit any exclusive right forbidden by Section 308(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1349(a)) at the airport, or at any other airport now or hereafter owned or controlled by it;

b. Agrees that, in furtherance of the policy of the FAA under this covenant, unless authorized by the Administrator, it will not, either directly or indirectly, grant or permit any person, firm or corporation the exclusive right at the airport, or at any other airport now or hereafter owned or controlled by it, to conduct any aeronautical activities, including, but not limited to, charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity.

c. Agrees that it will terminate any existing exclusive right to engage in the sale of gasoline or oil, or both, granted before July 17, 1962, at such an airport, at the earliest renewal, cancellation, or expiration date applicable to the agreement that established the exclusive right; and

d. Agrees that it will terminate any other exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under the Federal Airport Act.

4. The Sponsor agrees that it will operate the Airport for the use and benefit of the public, on fair and reasonable terms, and without unjust discrimination. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically covenants and agrees:

a. That in its operation and the operation of all facilities on the airport, neither it nor any person or organization occupying space or facilities thereon will discriminate against any person or class of persons by reason of race, color, creed, or national origin in the use of any of the facilities provided for the public on the Airport.

b. That in any agreement, contract, lease, or other arrangement under which a right or privilege at the Airport is granted to any person, firm, or corporation to conduct or engage in any aeronautical activity for furnishing services to the public at the airport, the Sponsor will insert and enforce provisions requiring the contractor;

(1) to furnish said service on a fair, equal, and not unjustly discriminatory basis to all users thereof, and

(2) to charge fair, reasonable, and not unjustly discriminatory prices for each unit or service; *Provided*, That the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.

c. That it will not exercise or grant any right or privilege which would operate to prevent any person, firm, or corporation operating aircraft on the Airport from performing any services on its own aircraft with its own employees (including, but not limited to maintenance and repair) that it may choose to perform.

d. In the event the Sponsor itself exercises any of the rights and privileges referred to in subsection b, the services involved will be provided on the same conditions as would apply to the furnishing of such services by contractors or concessionaires of the Sponsor under the provisions of such subsection b.

5. Nothing contained herein shall be construed to prohibit the granting or exercise of an exclusive right for the furnishing of nonaviation products and supplies or any service of a nonaeronautical nature or to obligate the Sponsor to furnish any particular nonaeronautical service at the Airport.

6. The Sponsor will operate and maintain in a safe and serviceable condition the Airport and all facilities thereon and connected therewith which are necessary to serve the aeronautical users of the Airport other than facilities owned or controlled by the United States, and will not permit any activity thereon which would interfere with its use for airport purposes: *Provided*, That nothing contained herein shall be construed to require that the Airport be operated for aeronautical uses during temporary periods when snow, flood, or other climatic conditions interfere with such operation and maintenance; *And Provided Further*, That nothing herein shall be construed as requiring the maintenance, repair, restoration or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the Sponsor.

7. Insofar as it is within its power and reasonably possible, the Sponsor will, either by the acquisition and retention of easements or other interests in or rights for the use of land or airspace or by the adoption and enforcement of zoning regulations, prevent the construction, erection, alteration, or growth of any structure, tree, or other object in the approach areas of the runways of the Airport, which would constitute an obstruction to air navigation according to the criteria or standards prescribed in Section 77.23, as applied to Section 77.27, Part 77 of the Federal Aviation Regulations. In addition, the Sponsor will not erect or permit the erection of any permanent structure or facility which would interfere materially with the use, operation, or future development of the Airport, in any portion of a runway approach area in which the Sponsor has acquired, or may hereafter acquire, property interests permitting it to so control the use made of the surface of the land.

8. All facilities of the Airport developed with Federal aid and all those usable for the landing and taking off of aircraft, will be available to the United States at all times, without charge, for use by military and naval aircraft in common with other aircraft, except that if the use by military and naval aircraft is substantial, a reasonable share, proportional to such use, of the cost of operating and maintaining facilities so used, may be charged. Unless otherwise determined by the FAA, or otherwise agreed to by the Sponsor and the using agency, substantial use of an airport by military and naval aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the FAA, would unduly interfere with use of the landing area by other authorized aircraft, or during any calendar month that:

a. Five (5) or more military or naval aircraft are regularly based at the airport or on land adjacent thereto; or

b. The total number of movements (counting each landing as a movement and each takeoff as a movement) of military or naval aircraft is 300 or more, or the gross accumulative weight of military or naval aircraft using the Airport (the total movements of military or naval aircraft multiplied by gross certified weights of such aircraft) is in excess of five million pounds.

9. Whenever so requested by the FAA, the Sponsor will furnish without cost to the Federal Government, for construction, operation and maintenance of facilities for air traffic control activities, or weather reporting activities and communication activities related to air traffic control, such areas of land or water, or estate therein, or rights in buildings of the Sponsor as the FAA may consider necessary or desirable for construction at Federal expense of space or facilities for such purposes. The approximate amounts of areas and the nature of the property interests and/or rights so required will be set forth in the Grant Agreement relating to the Project. Such areas or any portion thereof will be made available as provided herein within 4 months after receipt of written request from the FAA.

10. The Sponsor will furnish the FAA with such annual or special airport financial and operational reports as may be reasonably requested. Such reports may be submitted on forms furnished by the FAA, or may be submitted in such manner as the Sponsor elects so long as the essential data are furnished. The Airport and all airport records and documents affecting the Airport, including deeds, leases, operation and use agreements, regulations, and other instruments, will be made available for inspection by any duly authorized representative of the FAA upon reasonable request. The Sponsor will furnish to the FAA, upon request, a true copy of any such document.

11. The Sponsor will not enter into any transaction which would operate to deprive it of any of the rights and powers necessary to perform any or all of the covenants made herein, unless by such transaction the obligation to perform all such covenants is assumed by another public agency found by the FAA to be eligible under the Act and Regulations to assume such obligations and having the power, authority, and financial resources to carry out all such obligations. If an arrangement is made for management or operation of the Airport by any agency or person other than the Sponsor or an employee of the Sponsor, the Sponsor will reserve sufficient rights and authority to insure that the Airport will be operated and maintained in accordance with the Act, the Regulations, and these covenants.

12. The Sponsor will keep up to date at all times an airport layout plan of the Airport showing (1) the boundaries of the Airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the Sponsor for airport purposes, and proposed additions thereto; (2) the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars, and roads), including all proposed extensions and reductions of existing airport facilities; and (3) the location of all existing and proposed nonaviation areas and of all existing improvements thereon. Such airport layout plan, and each amendment, revision, or modification thereof, shall be subject to the approval of the FAA, which approval shall be evidenced by the signature of a duly authorized representative of the FAA on the face of the airport layout plan. The Sponsor will not make or permit the making of any changes or alterations in the Airport or any of its facilities other than in conformity with the airport layout plan as so approved by the FAA, if such changes or alterations might adversely affect the safety, utility, or efficiency of the Airport.

13. Insofar as is within its power and to the extent reasonable, the Sponsor will take action to restrict the use of land adjacent to or in the immediate vicinity of the Airport to activities and purposes compatible with normal airport operations including landing and takeoff of aircraft.

14. If at any time it is determined by the FAA that there is any outstanding right or claim of right in or to the Airport property, other than those set forth in Part II, paragraphs 7(a), 7(b), and 7(c), the existence of which creates an undue risk of interference with the operation of the Airport or the performance of the convenants of this Part, the Sponsor will acquire, extinguish, or modify such right or claim of right in a manner acceptable to the FAA.

15. Unless the context otherwise requires, all terms used in these covenants which are defined in the Act and the Regulations shall have the meanings assigned to them therein.

Part IV–PROJECT AGREEMENT

If the Project or any portion thereof is approved by the FAA, and an offer of Federal-aid for such approved Project is accepted by the Sponsor, it is understood and agreed that all airport development included in such Project will be accomplished in accordance with the Act and the Regulations, the plans and specifications for such development, as approved by the FAA, and the Grant Agreement with respect to the Project.

technician(s), and will further prepare and transmit such project reports as shall be required by the Federal Aviation Administration, or the Department, including semi-final and a final inspection report on the project work (or, if more than one construction contract is involved, then on each phase of the project work which is covered by separate contract). In its final inspection report or reports shall certify to the Department that the work involved has been fully completed in accordance with the plans, specifications and contract, as the same shall have been modified or supplemented by change order, supplementary contract or otherwise, and that such work is accepted.

6. The Municipality hereby designates the Department, as its Agent, and the Department hereby accepts said designation to act as Agent for the Municipality:
   (a) To exercise such direction of the project work as its personnel will permit but limited to a determination that the project is being completed in accordance with plans and specifications, provided that neither the Department nor the State shall be held responsible or be chargeable for any damage resulting from performance or attempted performance of said project work or for any other cause or reason.
   (b) To accept, endorse and deliver to the Municipality, without recourse, all warrants issued by the United States in aid of said project pursuant to this Agreement.
7. The Municipality shall be a signatory party, in its own name, stead, right and behalf, to the Project Application made or to be made to the Federal Aviation Administration; to the acceptance of such Grant Offer as shall be tendered by the United States, through the Federal Aviation Administration; to such Grant Agreement as shall be executed; and all applications for Grant Payments.
8. The estimated total cost of said project is Nine Million, Two Hundred Four Thousand, Three Hundred Sixty and No/100 Dollars ($9,204,360.00). On the basis of the Tentative Allocation issued by the Federal Aviation Administration, it is expected that a Grant Offer from the United States will be tendered in the approximate amount of Three Million, Two Hundred Twenty-three Thousand, Nine Hundred and No/100 Dollars ($3,223,900.00). Accordingly, it is estimated that the share of the Municipality in the cost of Project No. 8-17-0022-02 will be Five Million, Nine Hundred Eighty Thousand, Four Hundred Sixty and No/100 Dollars ($5,980,460.00). However, the Municipality specifically agrees that in any event it will pay on project costs any amount by which the total of actual project costs may and shall exceed the amount of Federal Funds granted to or allowed and paid on project costs, as the same may be incurred by reason of contingencies, over-runs, engineering errors, or otherwise, in order to complete the work called for by the Project Grant Agreement with the United States and the project plans and specifications as the same may, with the express consent and approval of the Municipality, be supplemented, amended, changed, or modified subject, however, and only to the budgetary limitation.
9. The Municipality shall establish an account in which shall be deposited all funds pertaining to the project. The Municipality shall have the right to draw checks against said account, or make withdrawals therefrom, without the approval of the Department and the bank or banks in which said funds are deposited shall be under no obligation to see to the application of said funds.
10. The Municipality agrees to comply at all times with the conditions prescribed in said Section 34 of the Illinois Aeronautics Act, with respect to which the Municipality is required to satisfy the Department under the terms thereof.
11. The Airport shall be used, operated and maintained at all times by the Municipality for the use and benefit of the general public without unjust discrimination, in accordance with all applicable Federal and State laws and the rules and regulations prescribed thereunder and in accordance with the covenants and assurances of the Municipality made with and to the United States.
12. The Municipality shall file with the Department such reports concerning the matters covered by this Agreement, including the use, operation and maintenance of the Airport, as the Department may require from time to time.
13. Notices, reports or other communication required by or transmitted pursuant to this Agreement, to the Department, shall be directed to the attention of the Director of Aeronautics, Department of Aeronautics of the State of Illinois, Capital Airport, Springfield, Illinois 62705, and to the Municipality shall be directed to the attention of the Commissioner of Aviation and the City Comptroller, City of Chicago, City Hall, Chicago, Illinois 60602.
14. To the extent that the Project Application or Grant Offer requires, this Agreement is made subject and subordinate to the provisions thereof.
15. This contract shall be and is deemed to be one entered into pursuant to the Illinois Aeronautics Act of the State of Illinois, and shall be construed and given effect in accordance with said Act and not otherwise.

In Witness Whereof, The parties hereto have caused this Agreement to be executed and their respective seals affixed as of the dates respectively hereafter set forth.

[Signature forms omitted]

SECTION 2. This ordinance shall be in force and effect from and after its passage.

Any notice from Lessee to Lessor under or in regard to this lease may be served by mailing a copy thereof to the Lessor at DONALD W. HACKEL D/B/A HACKEL'S GARAGE, 7229 S. Exchange Ave., Chicago, Ill. 60649 or at such other place as the Lessor from time to time in writing may appoint.

If the Lessor shall refuse or neglect to make needed repairs within ten days after written notice thereof sent by the Lessee, the Lessee is authorized to make such repairs and to deduct the cost thereof from rentals accruing under this lease.

Lessor shall furnish 24 hour watchman services, heat, electric, washrooms, every day of each week, and shall carry own garage insurance, Workmans Compensation, Public Liability, Property Damage and Fire Insurance, at own expense.

Lessee shall not assign this lease or sublet said premises or any part thereof without the written consent of the Lessor, and upon the termination of this lease shall surrender said premises to the Lessor in as good condition as at the beginning of the term of this lease, loss by fire or other casualty, ordinary wear and repairs chargeable to the Lessor, excepted.

Lessor shall have the right of access at reasonable times for examining or exhibiting said premises and for making repairs, and shall be allowed to place thereon notices of "To Rent" for sixty days prior to the termination of this lease, and of "For Sale" at all times, but all such notices shall be placed in positions acceptable to the Lessee.

Lessee shall have the right to make such alterations, additions and improvements on said premises as it shall deem necessary, provided that such additions and improvements whether made during the term of this lease or prior thereto, shall be regarded as removable fixtures, all or any part of which the Lessee at its election may leave on said premises, or remove prior to the termination of this lease.

If the parties are unable to agree upon the fair market value, it is agreed that each party shall appoint an appraiser and the two so appointed shall name a third appraiser and that the three appraisers so named shall determine the fair market value of such items, which determination shall be final and binding upon the parties hereto.

Resolution Urging Support for Restoration of Federal Funds for "Follow-Through" Projects for Chicago Public Schools.

A proposed resolution reading as follows:

WHEREAS, The United States Office of Education has decided to reduce the National funding level of one of the most successful Federal Aid to Education Programs entitled "Follow-Through", by $9,000,000.00; and

WHEREAS, Said United States Office of Education has decided not to fund "Follow-Through" projects for the school year 1972-1973 at the following Chicago public schools, to wit:

William B. Ogden Grade School,
24 W. Walton Street;

Julia C. Lathrop Grade School,
1440 S. Christiana Avenue; and

George Howland Grade School,

WHEREAS, "Follow-Through" projects have been one of the most successful Federal Aid to Education Programs for the reason that, 1) "Follow-Through" children made greater achievement gains than comparison children and showed more substantial positive shifts in attitudes toward school and learning than comparison groups; 2) parents of "Follow-Through" children were better informed about school, more likely to visit school to work in classrooms, and more convinced of their impact as parents than parents of comparison children; and 3) "Follow-Through" teachers were more likely to value parent participation home visits and pupil progress than teachers in comparison classrooms; and

WHEREAS, The decision not to fund "Follow-Through" projects at three Chicago Public Schools, namely, William B. Ogden, Julia C. Lathrop and George Howland will result in the direct elimination at these schools of full day kindergarten, will increase class size drastically in grades one through three, will terminate the services of more teachers, will terminate the employment of teacher-aides most of whom are low-income parents of children in the "Follow-Through" programs, and drastically reduce the appropriations for materials and supplies; and

WHEREAS, The decision of the United States Office of Education was rendered with no opportunity for local educators, teachers and parents of affected children to appeal the advisability of its decision; now, therefore,

Be It Resolved, That the Mayor and the members of the City Council of the City of Chicago in meeting assembled this 5th day of April, A.D., 1972, urge Officials of the United States Office of Education and Mr. Elliot Richardson, Secretary, Department of Health, Education and Welfare, to reverse the decision of the United States Office of Education to discontinue "Follow-Through" projects at William B. The City of Chicago with a population in excess of 3,000,000 is therefor a Home Rule Unit and may, under the power granted by Section 6(a) of Article VII "exercise any power and perform any function pertaining to its government and affairs including, but not limited to, the power to .... incur debt", and

WHEREAS, Section (6)k of Article VII of the 1970 Constitution of Illinois grants constitutional authority for the City of Chicago to incur debt payable from ad valorem tax receipts without prior referendum approval; and

WHEREAS, The establishment of basic procedures for incurring municipal debt and issuing bonds payable from ad valorem property tax receipts is both necessary and desirable to provide clarity in law and direction for subsequent action; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. The Municipal Code of Chicago is amended in Chapter 7 thereof by inserting the following new sections: Chapter 7, Section 58 through Section 65:

7-58 The City of Chicago, acting by its City Council, may, from time to time, borrow money for proper public purposes and in evidence of such borrowing, issue its general obligation bonds payable from ad valorem taxes to be levied without limitation as to rate or amount, against all taxable property situated within the City. Such bonds may be issued without the submission of the question to their issuance to the electors of the City for their approval and the procedures for the issuance of such bonds shall be substantially as herein provided in sections 59 through 65 of this Chapter.

7-59 The City Council shall adopt an ordinance (hereinafter designated the "Bond Ordinance") describing the public purpose or purposes to be served by such borrowing and in such Bond Ordinance shall make a finding and determination that such borrowing of money is necessary for the welfare of the government and affairs of the City, is for a proper public purpose or purposes and is in the public interest, which finding and determination shall be deemed conclusive.

Prior to the adoption of any such Bond Ordinance, a public hearing shall be held thereon by the Finance Committee of the City Council, pursuant to a notice given of such public hearing, such notice to refer generally to the subject matter of the ordinance and to be published at least once in a newspaper published in and having a general circulation within the City of Chicago, the date of such publication to be not less than ten days prior to the date of the public hearing.

7-60 The Bond Ordinance shall indicate the amount of money necessary to be borrowed, the amount of bonds to be issued in evidence thereof, shall fix the details of such bonds, including their date, number, denomination and maturity, which cannot exceed forty (40) years from the date of said bonds, and their maximum rate of interest, which shall not exceed 7 per cent per annum. The bonds shall be sold in such manner as may be determined in the Bond Ordinance. If the bonds are authorized to bear interest at the maximum rate, they shall be sold at a price of not less than par. If the bonds are authorized to bear interest at a rate less than the maximum interest rate, they may be sold at a price of less than par, but in any event at such a price that the interest cost to the City of the money received by it from the proceeds of the sale of said bonds shall not exceed the maximum interest rate per annum, computed to maturity according to standard tables of bond values.

7-61 The Bond Ordinance shall authorize the execution of the bonds therein authorized on behalf of the City by signatures of the Mayor and the City Comptroller or by their respective proxies; shall determine whether such bonds to be issued shall be registered in the name of the owner as to principal only or whether the same shall be fully registered as to both principal and interest; shall indicate the place or places of payment of the principal and interest maturing on said bonds and shall set forth the form of bond.

The Mayor and the City Comptroller may each designate another to affix their respective signatures to any written instrument which is required to be signed by the Mayor or the City Comptroller. In such case, each shall send to the City Council written notice of the person so designated by each, such notice stating the name of the person so selected and the particular instrument which such person shall have authority to sign as proxy for the Mayor and the City Comptroller, respectively. A written signature of the Mayor or of the City Comptroller, respectively, executed by the person so designated by each, with the signature of the person so designated underneath, shall be attached to each notice. Each notice, with the signatures attached, shall be recorded in the journal of the proceedings of the City Council and then filed with the City Clerk. When the signature of the Mayor is placed on a written instrument at the direction of the Mayor in the specified manner, the instrument, in all respects, shall be as binding on the City as if signed by the Mayor in person. When the Comptroller's signature is so affixed to a written instrument at the Comptroller's direction, the instrument, in all respects, shall be as binding on the City as if signed by the Comptroller in person.

7-62 The Bond Ordinance shall make provision for the payment of such bonds, both principal thereof and interest thereon until maturity, by the levy of a direct annual tax upon all the taxable property within said City sufficient for such purpose. A copy of such Bond

Ordinance, as adopted, certified to by the City Clerk, shall be filed in the offices of the County Clerks of all those counties within which a part of the City of Chicago may be situated. Such Bond Ordinance, as so filed, shall constitute the authority for the several County Clerks within which a part of the City of Chicago may be situated, in and for each of the years for which taxes are levied in said Bond Ordinance, to extend such taxes for collection against all the taxable property situated within the City of Chicago and situated within such several counties. The taxes so levied in and by such Bond Ordinance shall be extended annually by the several County Clerks without limitation as to rate or amount and such taxes shall be in addition to and in excess of any and all other taxes levied or authorized to be levied by the City Council. Such taxes so levied shall not be subject to repeal or abatement in any manner whatsoever until such time as all the bonds authorized under the terms of said Bond Ordinance and issued shall have been paid in full, both principal thereof and interest thereon up to and including the date of maturity.

7-63 The provisions of any Bond Ordinance shall constitute an appropriation of the amounts required as therein referred to and described and upon the delivery of the bonds therein authorized, the proceeds thereof shall be used solely and only for the purpose or purposes for which the bonds were authorized. Upon the adoption of any Bond Ordinance by the City Council and its approval by the Mayor, the same shall be published by the City Clerk, in pamphlet form, and shall be in full force and effect upon its publication.

7-64 Any bonds authorized and issued pursuant to the provisions of any Bond Ordinance adopted pursuant to the provisions hereof and also any bonds issued and outstanding as of July 1, 1971, which by their terms are payable from taxes unlimited as to rate or amount and levied against all the taxable property within the City of Chicago, may be refunded prior to their maturity or at their maturity and including the refunding of matured coupons evidencing interest upon such unpaid bonds. Such refunding shall be by the issuance of refunding bond to be authorized by a Refunding Bond Ordinance which shall be adopted in the manner and subject to the terms, conditions and provisions as herein required for the issuance of bonds for public purposes. Any such refunding shall be on the basis of an exchange of par for par for bonds and matured interest coupons to be refunded, or such refunding bonds may be sold at not less than par and the proceeds thereof be used for the purpose of paying maturing principal and matured interest coupons on such outstanding bonds as they become due.

Refunding bonds which may be issued for the purpose of refunding outstanding bonds issued prior to July 1, 1971 and including past due coupons pertaining to bonds issued prior to July 1, 1971 shall not be deemed an indebtedness incurred by the City of Chicago without a referendum in accordance with the provisions of Section 6(k) of Article VII of the Constitution of Illinois generally effective July 1, 1971.

7-65 Pursuant to the authority granted by Section 6 of Article VII of the Constitution of Illinois 1970, the procedures hereby established for the issuance of general obligation bonds, as herein provided for, shall be controlling and shall be complied with by the City Council in the borrowing of money through the issuance of general obligation bonds of the City, notwithstanding anything to the contrary contained in the provisions of the Illinois Municipal Code of 1961, and all acts amendatory thereof and supplementary thereto and any other law or laws of the State of Illinois.

CITY OF CHICAGO
DEPARTMENT OF LAW

April 26, 1972.

To the Honorable, The City Council of the City of Chicago:

Re: *James Richard Duncan vs.*
John Nelson, et al.,
United States Court of Appeals
No. 71-1208.

LADIES AND GENTLEMEN—On March 30, 1972, the United States Court of Appeals for the Seventh Circuit handed down an opinion which reversed the District Court's order of dismissal in the above case and remanded the cause for trial in accordance with its conclusion that while the plaintiff cannot recover damages for his conviction and incarceration, he must be afforded an opportunity to present proof concerning any harm which he allegedly suffered and which these defendants knew or should have known plaintiff would suffer as a result of the unlawful confession.

The plaintiff has brought suit in the United States District Court under the Federal Civil Rights Act alleging deprivation of his rights secured by the Fourteenth Amendment by reason of an alleged involuntary confession extracted by the defendants. Five of the six defendants were police officers for the City of Chicago and the remaining defendant was a police officer for the Chicago Transit Authority. Plaintiff's complaint alleged that on November 12, 1959, the plaintiff was taken into custody by two of the defendants as he was leaving Boys Court. He was thereafter individually and jointly interrogated by the defendants from 9:30 a.m. until 7:42 p.m. concerning the murder of one Samuel Schwartz. The result of this interrogation was an oral confession followed by a written confession. On January 20, 1960, over defendants' objection, the confession was admitted into evidence. The plaintiff was subsequently convicted of the murder of Samuel Schwartz and sentenced to 30 years imprisonment. In 1968, the Supreme Court of Illinois held that the confession obtained by these defendants was involuntary and that it was error to admit it as evidence. The case was remanded for a new trial and at that trial, where the involuntary confession was excluded, plaintiff was acquitted.

The Court of Appeals held 1) that regardless of which statute of limitation period was applied, i.e., tort or contract, the present case was timely; 2) that the complaint did not state a cause of action against the defendants for the conviction and incarceration of the plaintiff; and 3) that, although the complaint did not state a cause of action for plaintiff's conviction and confinement, it did state a cause of action for any harm he allegedly suffered as a result of the unlawful confession apart from the conviction and confinement.

A Petition for Rehearing was filed on behalf of the police officers of the City of Chicago on April 13, 1972.

Very truly yours,
(Signed) RICHARD L. CURRY,
Corporation Counsel.

CITY OF CHICAGO
DEPARTMENT OF LAW

April 11, 1972.

To the Honorable, The City Council of the City of Chicago:

Re: *City of Chicago v. Weiss, et al.,*
Illinois Supreme Court No. 42487

LADIES AND GENTLEMEN—The Illinois Supreme Court, on March 30, 1972, handed down an opinion affirming the convictions of the thirteen defendants in this case for violating section 193-1(d) of the Chicago disorderly conduct ordinance.

The defendants were part of a crowd of 3000 who, on the last day of the August, 1968 Democratic Convention, marched from Grant Park to a confrontation with the National Guard at 18th Street and Michigan Avenue. After the crowd learned it would not be permitted to march to the Amphitheatre, its goal that evening, taunts, rocks and firecrackers were directed toward the guardsmen. The defendants were then arrested because they violated the ordinance by failing to obey an order to disperse when "three or more persons are committing acts of disorderly conduct".

In affirming defendants' conviction under the ordinance, the Illinois Supreme Court held that (1) the ordinance is constitutional; (2) the marchers were lawfully stopped at 18th Street because of the likelihood of a riot if they proceeded further; (3) numerous acts of disorderly conduct were occurring in the immediate vicinity; and (4) defendants were adequately ordered to disperse.

Very truly yours,
(Signed) RICHARD L. CURRY,
Corporation Counsel.

CITY OF CHICAGO
DEPARTMENT OF LAW

April 20, 1972.

To the Honorable, The City Council of the City of Chicago:

Re: *People of the State of Illinois ex rel.*
Frank Satas and Veronica Satas,
Plaintiffs-Appellees,
vs.
City of Chicago, a municipal corporation, Richard J. Daley, Mayor of the City of Chicago, Joseph F. Fitzgerald, Commissioner of Buildings, John P. Maloney, Zoning Administrator; and William T. Prendergast, City Collector, Defendants-Appellants.
Appellate Court of Illinois, First District
No. 55510

LADIES AND GENTLEMEN—On April 19, 1972 the Appellate Court filed an opinion in the above entitled case, reversing the judgment of the Circuit Court of Cook County which required the City to issue a permit for a self-service, coin-operated laundromat for premises at 2633 West 43rd Street, Chicago, Illinois. This property is zoned B2-1 in which such use is not permitted.

The Appellate Court held that the plaintiffs failed to establish a clear legal right to the writ of mandamus to enforce rights which are contrary to the zoning ordinance and that the doctrine of estoppel under the circumstances of this case did not compel the City to issue the permit.

Very truly yours,
(Signed) RICHARD L. CURRY,
Corporation Counsel.

REPORTS OF COMMITTEES.

Committee reports were submitted as indicated below. *No request under the statute was made by any two aldermen present to defer any of said reports for final action thereon, to the next regular meeting of the Council, except where otherwise indicated.*

COMMITTEE ON FINANCE.

Amendment Approved for Urban Mass Transportation Capital Grant Contract No. DOT-UT-100.

The Committee on Finance submitted a report recommending that the City Council pass the following proposed ordinance transmitted therewith:

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. The pending proposed Amendment No. 1 to Contract No. DOT-UT-100 for Project No. ILL-UTG-5 by and between the City of Chicago and the United States of America is hereby in all respects approved. Said Amendment No. 1 is substantially in words and figures as follows:

Contract No. DOT-UT-100
Project No. ILL-UTG-5
Amendment No. 1

Amendment to Urban Mass Transportation
Capital Grant Contract

This Amendatory Agreement by and between the City of Chicago (herein called the "Public Body") and the United States of America (herein called the "Government").

WITNESSETH:

Whereas, the parties have entered into a Mass Transportation Capital Grant Contract as of the 12th day of May 1969, pursuant to which the Public Body agreed to undertake a Mass Transportation Capital Improvement Project and the Government agreed to provide financial assistance to the Public Body in the form of a Mass Transportation Capital Grant; and

Whereas, the purpose of this Amendment is to revise the Urban Mass Transportation Capital Grant Contract to provide additional Funds to cover budget overruns incurred in the prosecution of the Project, and specifically, due to greater than anticipated amounts required to place into service the rapid transit cars purchased under this contract;

Now, Therefore, in consideration of the mutual promises herein set forth, the parties hereto agree that the Mass Transportation Capital Grant Contract shall be amended as follows:

Section 1. The second paragraph of Section 2 is modified to read as follows:

"It is estimated that the total cost of the Project will not exceed Nineteen Million, Six Hundred Twenty Thousand Dollars ($19,620,000)".

Section 2. Section 3 is modified to read as follows:

"The Grant—In order to assist the Public Body in financing that portion of the total cost of the Project which the Department of Transportation (DOT) determines cannot reasonably be financed from revenues of the public transportation system in which the Project equipment is to be used (herein called the "Net Project Cost"), such Net Project Cost being estimated to be Nineteen Million, Six Hundred Twenty Thousand Dollars ($19,620,000), the Government will make a Grant in an amount equal to two-thirds of the actual Net Project Cost, as determined by DOT upon completion of the Project, or in the amount of Thirteen Million, Eighty Thousand Dollars ($13,080,000), whichever is the lesser.

The obligation of the Government to make Federal Grant payments in any fiscal year shall not exceed the amount provided in the Project Budget for the fiscal year in which requisitions therefor are submitted.

The Public Body agrees that it will provide from sources other than (a) Federal funds, (b) receipts from the use of the Project equipment, or (c) revenues of the public transportation system in which such equipment is used, funds in the amount sufficient, together with the Grant to assure payment of the actual Net Project Cost. The Public Body further agrees that no refund or reduction of the amount so provided will be made at any time, unless there is at the same time a refund to the Government of a proportional amount of the Grant."

This Amendatory Agreement may be simultaneously executed in several counterparts, each of which so executed shall be deemed to be an original, and such counterparts together shall constitute one and the same instrument.

In Witness Whereof, the Public Body has caused this Contract to be duly executed in its behalf, and, thereafter, the Government has caused the same to be duly executed in its behalf this....................day of....................1972.

[Signature forms omitted]

SECTION 2. The Mayor is hereby authorized and directed to sign said Amendment No. 1 and the City Clerk is authorized and directed to attest and impress the corporate seal of the City thereon.

Agreement Authorized with Federal and State Authorities to Administer Welfare Demonstration Project under Emergency Employment Act of 1971.

The Committee on Finance submitted a report recommending that the City Council pass the following proposed ordinance transmitted therewith (referred to the committee on March 29, 1972):

WHEREAS, The Congress of the United States has enacted the Emergency Employment Act of 1971 (EEA) to provide during times of high unemployment, programs of public service employment to unemployed persons; and

WHEREAS, High unemployment severely limits the opportunities available to Chicago residents, especially low income people, persons of limited English speaking ability, and others from a socio-economic background generally associated with high unemployment to become gainfully employed; and

WHEREAS, There are great unfilled public needs in such fields as environmental quality, health care, neighborhood improvement, recreation, education, public safety, maintenance of streets, parks, and other public facilities, beautification, and other fields of human betterment and public improvement; and

WHEREAS, Expanded work opportunities must keep pace with increased entrants into the labor force, including young people, persons recently separated from military service, and older persons who desire and require gainful employment; and

WHEREAS, Many persons have become unemployed as a result of technological change, shifts in federal expenditure patterns as in aerospace and construction industries, and could contribute immensely with their talent and skills in needed public services; and

WHEREAS, Federal resources for public service employment during an economic downturn can help as an economic stabilizer to ease the impact of unemployment for the affected individuals; and

WHEREAS, Federal and state authorities have created a Welfare Demonstration Project to provide high quality jobs in areas of needed public service that will allow Aid-to-Families-with-Dependent-Children (AFDC) welfare recipients the opportunity to become self-sufficient; and

WHEREAS, The welfare recipient will be paid by governmental agencies which shall be reimbursed from a fund maintained by the State, hereafter, known as the Welfare Fund, and derived from two sources: 1) Emergency Employment Act funds and 2) the total of the AFDC grants of the hired welfare recipients; and

WHEREAS, The Welfare Fund will include approximately 60% EEA dollars and approximately 40% aggregate AFDC dollars; and

WHEREAS, A welfare recipient's paycheck will represent his AFDC grant plus a subsidy of EEA funds in an amount equal to the difference between the AFDC grant and the entry level salary, and that the number of jobs available will approximate 610 because the average AFDC grant is $244 per month or $2,928 per year; the amount of EEA funds available to Chicago is $2,917,251, and the average entry level salary is $7,600 per year; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. That the Mayor of the City of Chicago is hereby authorized to negotiate and enter into agreement with Federal and State authorities to administer a Welfare Demonstration Project for approximately 610 Aid-to-Families-with-Dependent-Children (AFDC) welfare recipients thereby providing them with job opportunities financed by reimbursement from the Welfare Fund up to $2,917,251 in EEA funds and the City's share of AFDC funds, as described in the preamble.

SECTION 2. That the Mayor of the City of Chicago may, in implementation of such project, arrange with other governmental agencies to act as sub-agents as follows: Chicago Board of Education, seven hundred and forty-five thousand dollars of EEA funds, ($745,000.00); Chicago Housing Authority, two hundred and ninety-eight thousand dollars of EEA funds, ($298,000.00); Chicago Park District, two hundred and ninety-eight thousand dollars of EEA funds, ($298,000.00); City Colleges of Chicago, two hundred and ninety-eight thousand dollars of EEA funds, ($298,000.00); and City of Chicago, one million, two hundred and seventy-eight thousand, and two hundred and fifty-one dollars of EEA funds ($1,278,251.00). The total sum is two million, nine hundred and seventeen thousand, two hundred and fifty-one dollars ($2,917,251.00) of EEA funds plus their respective share of AFDC funds as described in the preamble.

SECTION 3. That the Mayor of the City of Chicago is authorized to commit a local contribution of in-kind services and costs of ten percent of the total EEA grant as required by the Emergency Employment Act of 1971, and the Mayor shall require a proportionate share of the local contribution from each of the sub-agents identified in Section 2 of this ordinance.

SECTION 4. This ordinance shall become effective immediately upon its passage.

On motion of Alderman Keane the foregoing proposed ordinance was *Passed,* by yeas and nays as follows:

WHEREAS, The Local Issuing Agency proposes to issue Project Notes as hereinafter provided; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. For the purpose of providing funds to pay expenses incurred or to be incurred pursuant to each Contract or to refund, renew or extend its obligations issued in connection with each such Contract, the Local Issuing Agency hereby determines to issue its negotiable Project Notes for purchase by the public from time to time in amounts which shall not exceed the aggregate loan amount or the Actual Development Cost specified in each Contract, as the case may be. Such Project Notes shall be in such principal amounts, bear interest at such rate or rates payable at maturity, be dated, mature, be issued in connection with each Contract and be identified by a series designation from "First Series" upward in order of issuance followed by the year of issuance, all as prescribed by this Ordinance.

SECTION 2. a. The Chairman of the Department of Urban Renewal of the City of Chicago is hereby authorized and directed to determine from time to time and on the basis of estimates the amount of funds required to provide for the orderly financing of any Project included in the Contracts, including funds to retire, refund or extend in whole or in part outstanding obligations of the City for account of each respective Contract, if any; provided that for the convenience of financing, said estimate for each such Contract shall be rounded upward to the next multiple of $1,000. Each such estimate shall cover a time period certain which shall not exceed 18 months and shall coincide with a financing schedule otherwise mutually satisfactory to said Chairman and the Government. A copy of the estimate shall be filed in the office of the City Comptroller.

b. Upon receipt of such estimates from the Chairman of the Department of Urban Renewal, the City Comptroller is hereby authorized and directed to advertise each series of Project Notes of the Local Issuing Agency for sale to the public in the amounts required by such estimates by causing the publication of a Notice of Sale thereof in a newspaper pursuant to State Law, if required, and at least once in The Daily Bond Buyer, a financial newspaper published in the City of New York, New York. The Notice of Sale shall be in accordance with established municipal financing practices and shall conform with the policies, terms and conditions of sale required by the Government, and the Notice of Sale to be published in The Daily Bond Buyer may be included in a consolidated Notice of Sale whereby the Local Issuing Agency and other local public bodies jointly advertise their respective series of Project Notes for sale. Each Notice of Sale shall be published at intervals in accordance with a schedule of advertising arranged in cooperation with the Government.

c. Each proposal submitted for all or a part of any series of Project Notes shall be in accordance with established municipal financing practices and in the form prescribed by the Government.

SECTION 3. a. The City Comptroller is hereby authorized and directed on each date specified in a duly published advertisement of the Notice of Sale for a series of Project Notes and at the time and place mentioned therein to receive, open and review all proposals received for the purchase of Project Notes. Proposals, including telegraphic proposals or instructions as to the completion of proposals, received after the time specified for the receipt of bids in the published Notice of Sale shall not be opened, but rather shall be returned by the City Comptroller to the proposed bidder who shall be advised of the date and hour when his proposal or telegram was received. Any proposals which are incomplete in any substantial respect shall be forthwith rejected by the City Comptroller. Upon completion of the review, the contents of all proposals shall be communicated by telephone to the Government with a recommendation for award.

b. The City Comptroller after receiving Government approval of a recommended award is hereby authorized and directed on behalf of the Local Issuing Agency to award the Project Notes at the lowest interest rate or rates not in excess of the percentage rate per annum specified in the applicable Contract or under State Law offered in the proposals without reference to premiums; Provided, however, that as among proposals specifying the same lowest interest rate, awards shall be made on the basis of the highest premium per dollar principal amount of the Notes specified in such proposals. The City Comptroller shall promptly notify each successful bidder by telegram of the principal amount of Project Notes so awarded to such bidder.

SECTION 1. That the Commissioner of Aviation and the City Comptroller, subject to approval as to form and legality of the Corporation Counsel, are authorized to execute in behalf of the City of Chicago, a license agreement with Sears Roebuck & Company at Chicago Midway Airport, said license agreement to be in the following form:

This Agreement made and entered into this.......... day of ...., by and between the City of Chicago, a Municipal Corporation of the State of Illinois, hereinafter called Licensor, and Sears, Roebuck & Co., Inc., a Corporation organized and existing by virtue of the laws of the State of New York, hereinafter called Licensee.

WITNESSETH:

In consideration of the mutual covenants and agreements hereinafter expressed, the parties hereto agree as follows:

1. Licensor hereby grants to Licensee a license to occupy and use, subject to all of the terms and conditions hereinafter stated the following premises, to wit:

A plat of land located on perimeter taxiway, contiguous to the north side of Licensee's Hangar Site Premises, adjoining the northwest corner of said premises, measuring 75′ x 30′ consisting of 2250 sq. ft. as shown in red on Exhibit "A" attached hereto and by this reference made a part hereof; and, in addition thereto, sufficient area immediately west of said area extending south along the west side of the leased property for the installation of underground piping and appurtenances indicated in blue on the said Exhibit "A", located at Chicago Midway Airport in the City of Chicago, Counties of Cook and DuPage, State of Illinois.

2. Said premises, containing three (3) underground fuel storage tanks, two (2) 15,000 gallon tanks and one (1) 5,000 gallon tank, may be used by Licensee solely for the purpose of operating and maintaining an underground fuel storage system for the fueling of aircraft belonging to Licensee.

In connection with said operation, Licensee may replace any or all of the existing fuel tanks and accessory equipment with new tanks and equipment, at its own expense, subject to prior written approval of Licensor's Commissioner of Aviation and Commissioner of Public Works. Such approval to be granted subsequent to Licensee's procuring all necessary insurance, permits and licenses as required by the provisions of Chapters 129 and 129.1 and elsewhere in the Municipal Code of the City of Chicago, by the provisions of Title 14 CFR Part 77 of the Federal Aviation Regulations, and by the further provisions of this agreement.

Following the installation as hereinabove set forth, Licensee shall make no alterations, removal, additions or replacements without obtaining the Commissioner of Aviation's written approval in advance thereof.

3. Licensor does not warrant the condition of the existing tanks and accessory equipment and makes no representation as to their usability in their present condition.

All existing installations "as is", and all new installations or replacement of tanks, and all piping, connections, and other accessory equipment in connection thereof, necessary for the utilization of said fueling system by Licensee, shall remain the property of Licensor.

4. Licensee shall pay Licensor for the privileges afforded herein, in addition to any other permit or annual license fees required by law or ordinance of the City of Chicago, the sum of Three Hundred Thirty-seven and 50/100ths Dollars ($337.50) per annum payable in advance at the office of the City Comptroller, Room 501, City Hall, Chicago, Illinois 60602. It is understood and agreed that notwithstanding the above term, either party may cancel and terminate this agreement upon ninety (90) days written notice to the other party, or in the event the terms and conditions hereof are not fulfilled, or in the further event the Licensee abandons the use of the premises for the purposes herein stated.

6. It is understood that the right to use and/or install said storage tanks and lines and appurtenances shall not be construed as authorizing the conduct of a separate business by Licensee and that Licensee shall not sell, or furnish storage for others, any gasoline, oil, greases and other fuel lubricants at said airports.

7. All installations, construction, operation, and maintenance of said tanks and appurtenances shall be accomplished by Licensee at its sole cost and expense and in such manner as will at all times after installation enable Licensor or others so authorized by Licensor to use the surface of the premises, and at all times to use the taxiways or roadways adjacent thereto, and shall not interfere with other Licensees' installations.

8. In the event future construction on the premises by Licensor or others so authorized by Licensor necessitates changes in Licensee's installations, Licensee agrees that it shall make all necessary changes at its own cost and expense.

9. Licensee, at his own expense, shall keep in force insurance in amounts, kinds and companies satisfactory to the City Comptroller for the protection of Licensor against all liabilities, judgments, costs, damages and expenses which may accrue against, be charged to or recovered from said Licensor by reason or on account of damage to the property of, injury to or death of any person, under any circumstances when such damage, injury or death is due to any act or thing done or neglected to be done by Licensee or Licensor in connection with the use of said premises at said Airport. All such insurance policies or certificates of insurance shall be delivered to and held by the City Comptroller.

10. Licensor shall not be liable to Licensee for any injury to or death of any person or for any damage to any property caused by Licensor or any of its officers, agents or employees in the maintenance or operation of said premises whether such injury, death or damage is due to negligence or otherwise, all claims for any such injury, death or damage being hereby expressly waived by Licensee.

11. Licensee agrees to abide by and be subject to all rules and regulations which are or which from time to time may be promulgated by Licensor affecting the operation and use of fuel storage, fuel transfer and aircraft fueling facilities, fixed, mobile or otherwise, at Chicago Midway Airport.

12. Licensee, in performing under this agreement, shall not discriminate against any worker, employee or applicant, or any member of the public, because of race, creed, color, religion, age, sex or national origin, nor otherwise commit an unfair employment practice. Licensee will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, creed, color, religion, age, sex or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. Licensee agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause. Licensee further agrees that this clause will be incorporated in all contracts entered into with suppliers of materials or services, contractors and subcontractors and all labor organizations, furnishing skilled, unskilled and craft union skilled labor, or who may perform any such labor or services in connection with this agreement.

Article IX

Landlord hereby grants to Tenant the right of access and ingress to and egress from the premises by Tenant and its employees, contractors, suppliers, servicemen, sublessees, guests, patrons and invitees; provided, that such rights of access, ingress and egress, are at all times exercised in conformance with the further provisions of this agreement and any and all regulations promulgated by Landlord or the Commissioner, or other lawful authority, for the care, operation, maintenance and protection of the Airport and the public.

Confession of Judgment.

If Tenant shall vacate or abandon the premises, or any part thereof, or permit the same to remain vacant or unoccupied, or in the case of the nonpayment of the rent and charges reserved hereby or any part thereof or of the breach of any covenant contained in this agreement, Tenant's right to the possession of the premises thereupon shall terminate, with or without any notice or demand whatsoever, and the mere retention of possession thereafter by Tenant shall constitute a forcible detainer of said premises, and if the Landlord so elects, but not otherwise, this agreement shall thereupon terminate.

Upon the termination of Tenant's right of possession, as aforesaid, whether this agreement be terminated or not, Tenant agrees to surrender possession of the premises immediately, without the receipt of any demand for rent, notice to quit or demand for possession of the premises whatsoever, and Tenant hereby grants to Landlord full and free license to enter into and upon said premises, or any part thereof, to take possession thereof without process of law and to expel and remove Tenant, or any other person who may be occupying the premises, or any part thereof.

Landlord may use such force in and about expelling and removing Tenant and said other person as may reasonably be necessary and Landlord may repossess itself of the said premises as of its former estate, but said entry of said premises shall not constitute a trespass or forcible entry or detainer, nor shall it cause forfeiture of charges due by virtue hereof, nor a waiver of any covenant, agreement or promise contained in said agreement, to be performed by Tenant.

Tenant hereby waives all notice of any election made by Landlord under this agreement, demand for rent, notice to quit, demand for possession, and any and all notices and demands whatsoever, of any and every nature, which may or shall be required by any statute of this State relating to forcible entry and detainer, or to Landlord and Tenant, or any other statute, or by the common law during the terms of this agreement.

The acceptance of rent, whether in a single instance or repeatedly, after it falls due, or after knowledge of any breach hereof by Tenant, or the giving or making of any notice or demand, whether according to any statutory provisions or not, or any act or series of acts, except an express written waiver, shall not be construed as a waiver of Landlord's right to act without notice or demand or of any other right hereby given Landlord, or as an election not to proceed under the provisions of this agreement.

If default to be made in the payment of the rent, or other charges herein reserved, or of any installment thereof, as herein provided, Tenant does hereby irrevocably constitute any attorney of any Court of Record in this State, attorney for it and, in its name, from time to time, to waive the issuance of process and service thereof, to waive trial by jury, to confess judgment in favor of Landlord and against Tenant for the amount of rent which may be then due, by virtue of the terms hereof, or of any extensions or renewals hereof, or by virtue of any holdover after the termination hereof, and which may be in default, as aforesaid, together with the costs of such proceedings and for said purposes to file in said cause his cognovit thereof, and to make an agreement in said cognovit, or elsewhere, waiving and releasing all errors which may intervene in any such proceeding and waiving and releasing all right of appeal and right to writ of error, and consenting to an immediate execution upon such judgment, and Tenant hereby confirms all that said attorney may lawfully do by virtue hereof.

Landlord shall have a first lien on Tenant's interest hereunder, and on Tenant's property now or hereafter located in said premises, or elsewhere, to secure payment of all moneys due hereunder, which lien may be foreclosed in equity and in case of any such foreclosure proceeding, a receiver shall be appointed to take possession of said premises and property and relet the premises under order of court.

The obligation of Tenant to pay the rent reserved hereby during the balance of the term hereof, or during any extension thereof, shall not be deemed to be waived, released or terminated, nor shall the right and power to confess judgment given in the preceding paragraphs hereof be deemed to be waived or terminated by the service of any five-day notice, other notice to collect, demand for possession, or notice that the tenancy hereby created will be terminated on the date therein named, the institution of any action of forcible detainer or ejectment, or any judgment for possession that may be rendered in such action, or any other act or acts resulting in the termination of Tenant's right to possession of the premises.

The Landlord may collect and receive any rent due from Tenant and payment or receipts thereof shall not waive or affect any such notice, demand, suit or judgment, or in any manner whatsoever waive, affect, change, modify or alter any rights or remedies which Landlord may have by virtue hereof.

Tenant shall pay and discharge all costs, expenses and attorney's fees which shall be incurred and expended by Landlord in enforcing the covenants and agreements of this agreement, whether by the institution of litigation or in the taking advice of counsel, or otherwise.

The rights and remedies hereby created are cumulative and the use of one remedy shall not be taken to exclude or waive the right to the use of another.

Article XII

Laws, Ordinances, Rules and Regulations.

Tenant shall observe and comply with all laws, ordinances, rules and regulations of the United States Government, State of Illinois, Counties of Cook and DuPage, City of Chicago and all agencies thereof which may be applicable to its operations or to the operation, management, maintenance or administration of the Airport now in effect or hereafter promulgated.

Article XIII

Tenant, upon performing the covenants, conditions and agreements herein contained, shall and may peacefully have, hold and enjoy the premises and privileges hereinafter granted.

Article XIV

Services and Charges.

Landlord may furnish security service, heat, sanitary facilities and utilities as designated at outlets and at points as shown on attachment hereto. Tenant shall pay any and all charges and costs therefor whether or not metered or billed directly from Landlord upon estimates of such costs made solely by Landlord.

Article XV

Performance Bond.

To insure faithful performance of the covenants, conditions and agreements herein contained, Tenant, at the expense of Tenant shall, before exercising any rights or privileges accorded hereunder, furnish a bond in form, kind and amount as determined and directed solely by the Comptroller for incorporation within this agreement as attachment thereto.

Article XVI

Equal Opportunity.

Tenant, in performing under this agreement, shall not discriminate against any worker, employee or applicant, or any member of the public, because of race, creed, color, religion, age, sex or national origin, nor otherwise commit an unfair employment practice.

Tenant will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, creed, color, religion, age, sex or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

Tenant agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this non-discrimination clause. On motion of Alderman Wigoda (seconded by Aldermen Keane, Despres, Cohen, Singer, Natarus, Ray, Fifielski and Marzullo) the foregoing proposed resolution was *Adopted.*

The seconding Aldermen all spoke highly of Mr. Robinson's dedication to improving all phases of traffic for the City of Chicago. He was hailed as a tireless worker, one to whom hours meant nothing. It was noted that he could always be found in his office, and if not there, his staff always knew where he could be reached. It was noted, that while Mr. Robinson's decisions were not always agreed with, his logic and statistics were always marshalled in such a clear cut fashion, he had always been admired and respected. He was also praised for having been a tireless worker in his community, offering whatever assistance he could in many civic projects. All thanked him for the assistance he had rendered and wished him and his wife happiness and long years of health in his retirement.

Honorable Richard J. Daley, Mayor, invited Mr. Robinson to the podium, and he too expressed his appreciation for the fine job "Mike" had done for the City's many complex traffic problems. The Mayor also stated that the many innovations introduced by Mr. Robinson in handling traffic problems would stand as a monument to his memory.

Mr. Robinson then addressed the City Council stating that he was very grateful for the many kind expressions that had been offered on his behalf. He introduced his daughter, grandchildren and son to the members of the City Council and assembled guests. In conclusion he stated that whatever success he had enjoyed would not have been possible without the help and understanding of the members of the City Council.

If the parties are unable to agree upon the fair market value, it is agreed that each party shall appoint an appraiser and the two so appointed shall name a third appraiser and that the three appraisers so named shall determine the fair market value of such items, which determination shall be final and binding upon the parties hereto.

WHEREAS, Almighty God in His Infinite Wisdom, has called to his eternal reward on May 2, 1972, J. Edgar Hoover, Director of the Federal Bureau of Investigation; and

WHEREAS, J. Edgar Hoover was born on January 1, 1895, in Washington, D.C. in the shadow of the Capitol. His work as a messenger in the Library of Congress, while attending high school, was the start of a government career that was to last for more than half a century. He was an honor student at George Washington University where he received his Bachelor of Laws Degree in 1916, and his Master of Laws in 1917. He began his career with the Justice Department as a Clerk in 1917, served as a special attorney until 1921 when he was appointed Assistant Director of the FBI. On May 10, 1924, at the age of 29 he was appointed Director of the FBI, a position he held until his passing; and

WHEREAS, The name of J. Edgar Hoover became synonymous with the FBI as a symbol of professional law enforcement and stern righteousness. Mr. Hoover took over a small bureau and built it into a powerful, professional crime fighting and investigatory organization that served as an example for police departments around the world and is a scourge to the lawless. He was an early advocate of scientific police work. The establishment of the Identification Division in 1924, a crime laboratory in 1932 and an academy to train policemen from state and city departments in modern methods in 1935, were all solid contributions to law enforcement, and became instruments of invaluable service; and

WHEREAS, The nation as a whole pays tribute to J. Edgar Hoover as a great innovator and incorruptible public servant. His passing will leave a great void not only in the bureau to which he devoted his personal and professional life, but also in the nation; now, therefore,

Be It Resolved, That the Mayor and members of the City Council in meeting assembled this 17th day of May, 1972, A.D., together with all the people of Chicago join the people of our nation in publicly expressing their sorrow upon the passing of J. Edgar Hoover, distinguished American and devoted public servant and do hereby acknowledge their gratitude for his life of service dedicated to protecting and safe-guarding this nation and its people from criminal elements within and without; and

Be It Further Resolved, That as a mark of respect to the memory of J. Edgar Hoover this resolution be spread upon the permanent Record of Proceedings of the City Council.

WHEREAS, Investigation has shown that a parcel of property immediately south of West 83rd Street and immediately east of the site selected, located and designated by the Public Building Commission of Chicago as a site for Project BE-15 is improved with a building whose loading docks are so situated that the taking, as contemplated by the initial site designation, of the west 33 feet of vacated South Wallace Street for a distance of approximately 160 feet south of West 83rd Street would give rise to a claim by said owner for damages; and

1. Modified the site for Project BE-15 which had previously been approved by the City Council; said modification consisting of a deletion from said site for Project BE-15 of the real property hereinafter legally described which will mitigate or eliminate any claim for damages by the owner whose use of loading docks would otherwise be seriously impaired:
